EDMONTON, ALBERTA, SATURDAY, AUGUST 4, 1906.

NUMBER 182.

## RAILWAY CROP REPORTS INDICATE SPLENDID HARVEST

Agents Throughout West Fore-  
cast Yields Ranging From  
18 to 35 Bushels per  
Acre.

Winnipeg, Aug. 4.—The crop report of the Canadian Northern issued last evening is the fullest yet given regarding the big harvest which will be in full swing in less than a fortnight. The promised yields run from 18 to 35 bushels an acre. The railway reports cover sixty points, with an average estimate of 28.1-2 bushels to the acre. Swan River, Kinsistow, Star City and Prince Albert report as high as 35 bushels. In the country surrounding Battleford the harvest is uniformly heavy averaging 30 bushels. The cutting in that district, however, will not commence until August 17th. Prince Albert also reports an immense crop with its harvest date set a little later than Battleford. In Manitoba generally the bulletins say "excellent," "very good," "very healthy," "very best," "splendid," "first class" and so on. In Brandon district and southern Manitoba, at such points as Routhwaite and Emerson the yield indicated is not so large as the northwestern reports, 18, 20 and 22 bushels being the probable returns from the fields. One station reported the commencement of the harvest which is Minotown and the date was July 28. Three stations report damage ranging from 5 to 10 per cent. damage from rain and hail. One significant fact indicates the prosperity of the farmers and the activity of implement firms and that is that few districts report a shortage of machinery. Only three points report that they will need binder twine they are Portage la Prairie, Methven and Eden.

### A VETERAN'S VISIT TO EDMONTON.

A pleasant little dinner was held last night at the Prince Arthur Cafe, when some of his non-com's of the early days of the Mounted Police force, took occasion of the visit to Edmonton of their old chief, Col. Irvin, to hold an informal reunion, which the colonel attended. Those present, besides were Dr. E. A. Braithwaite, W. H. Cooper, P. H. Belcher and G. E. Grogan. Reminiscences of old times and old comrades were the order of the evening, which was thoroughly enjoyed by everybody, and by no means so apparent as their distinguished guest who, having first come west with Lord Wolsey on the first Red River expedition, is naturally a complete epitome in himself of the early history of the country. The colonel's first trip to Edmonton was made by dog train from Calgary in the winter of '75. The contrast between the unbroken wilderness of that time and the well-settled farming country of the present struck him very forcibly. The colonel, who is leaving this afternoon will visit Calgary, Lethbridge and Macleod, where he has his old headquarters before returning to Winnipeg.

## PERMITS FOR THE WEEK

Building Privileges Granted Aggregating \$20,400.

The building permits for the week total \$20,400. The majority of the permits are for residences and small dwellings. McDougall & Secord took out the permit for their new block on Jasper, just west of the Potter & McDougall block. It will cost \$15,000 and will be a two-story brick block. The plans at first called for one storey, but have since been changed to two storeys. The lower floor will be occupied by Cronin's new restaurant and a poolroom. Work has been going on for some weeks on the building, and the foundation is about completed. The complete list of permits for the week is as follows:

Ed. Case, dwelling, Third	1,500
Henry Buck, dwelling, Norwood	2,000
J. Goodmurry, dwelling, Namayo	200
K. Orr, dwelling, Eighth	350
W. Orr, dwelling, Eighth	350
Hugh Doring, dwelling, Clara	550
McDougall & Secord, stores, Jasper	15,000
Hi-Ni ward, B. 8th	7,000
Pickering Bros., dwelling, 6th	7,000
J. Langlais, dwelling, 7th	3,000
C. Turgeon, dwelling, 2nd	1,800
A. Grant, dwelling, Sutherland	200
Armstrong & Snow, shop, Rice	350
A. Shearer, dwelling, Clara	350
Mrs. Stovel, barn, Namayo	250

### BATTING RECORD.

The following is the full batting score last evening in the game with the Anacortas.

AB	R	B	S	H	O	A	E

Attendance, 1,000.							

—Mitchell & Shapcott, the auctioneer, has an important sale of furniture on Monday next at two p.m., at 536 Fraser avenue, fourth door north of C. N. R. track.

## REPORT WAS SATISFACTORY

Council Investigates Number of Civil  
Employees and Cost of Public  
Works.

The city council held a special meeting last evening. The meeting was for the purpose of discussing a report from City Engineer Keeley of the amount and costs of labor for two weeks from July 5th to July 20th.

At the meeting of the council on July 24, Aldermen Calhoun and Bellamy moved that Mr. Keeley make the report. Ald. Calhoun had been making some remarks on the public works, and said that he thought there were too many foremen. This led to the motion for the report.

On Tuesday evening Engineer Keeley came prepared with a report. It was a detailed statement of the amount of labor, number of foremen and workmen, average wages and total cost, for one day, Friday, July 20. He selected this day merely as a fair representation of the average working day of the city.

When the report came up for discussion, Ald. Bellamy raised an objection. He said it was not what he had asked for. What he wanted was a report of all the labor for two weeks. Other matters were taken up and before the council got around to the report again the time had expired.

During the week Mayor May called a special meeting. The press received no intimation of the meeting.

The meeting was held last evening and all the council were present. Engineer Keeley came up with the desired report, a report in detail of the two weeks from July 5 to July 20. The report was discussed and appeared to be generally satisfactory. Some comment was made upon it, and there were some suggestions for improvement.

The report showed in full the number of foremen, the number of men employed, the total number of days of labor for the two weeks for each department of public works. The total cost of the labor for the two weeks was \$9,177.00, which tallies with the pay sheets for those weeks.

Mr. Keeley explained the seeming surplus number of foremen upon which Ald. Calhoun had remarked. He said that on occasions it was necessary to send a workman out on charge of a small gang, for a day or so, and he was for the time being, called a foreman, and was thus designated in the report under the dates on which he had worked as such.

### ADDITIONAL LOCAL.

—Wm. E. Brock who was tried at Wetaskwin last month for the murder of J. B. Snoddy, and acquitted on the plea of insanity, has been committed to the Brandon insane asylum as a criminal lunatic. The necessary proceedings took place before Inspector Strickland of Port Saskatchewan, while Brock has been in custody since his trial, and a warrant for his commitment was issued today.

### ADDITIONAL SOCIAL AND PERSONAL.

—Hon. W. T. Findlay, Minister of Agriculture, came back last night and was in his office today.

—Roy Douglas, treasury department, leaves for his home in Banff, where he will spend a few days before going to the coast for two weeks.

### TENDERS WANTED.

Tenders will be received up to 1 p.m. on Monday next, August 6th, for building a second story on the press room of the Bulletin Office. The lowest or any tender not necessarily accepted. Plans and specifications may be seen at our office.

JOHNSON, CALDERON & LINES.  
Architects.  
110 Jasper Ave., West.

## SASKATCHEWAN TOWNS GROW

Census Bulletin Shows Good Increases for Past Five Years.

Ottawa, Aug. 4.—Census bulletin issued shows that in the five years since 1901, Saskatchewan's population has increased from 113 to 3,331. Indian Head from 768 to 1,545, while seven smaller Saskatchewan towns increased from 1,802 to 6,309, an increase of three hundred per cent.

## BAD STORM AT BATTLEFORD

Heavy Wind and Rain Storm Did  
Damage on Monday Evening.

North Battleford was visited by a bad storm on Tuesday evening. A lot and sultry day with an easterly gale blowing culminated in a severe electric storm from the southwest, which broke over the town at 6 o'clock last night. The lightning was very vivid, enveloping the whole town. A high wind whirled, which struck the town with cyclonic force. For a few minutes buildings rocked, sign boards were blown away, and boards, chimneys, etc., were hustling through the air. The wind was followed by a terrific downpour accompanied by hail, which was fortunately small. The lightning struck the cottage of J. A. Gregory, Dominion land agent, entering the roof and passing into the house over the front door, circling rooms, smashing crockery, pictures and furniture. The whole family of five were in the house at the time and Mrs. Gregory was affected by the shock. Their three months old baby had a narrow escape from death, being in its baby carriage just under the place where the lightning entered the house, and was covered with the flying plaster. The damage is estimated at \$200. The wind storm blew over a number of out-houses and overturned two shacks, smashing the contents, but, though occupied at the time, no one was hurt.

The Baptist church, a substantial building, not quite finished, 20x37, was lifted bodily off its foundation and carried eight feet from its original position and it has suffered considerable damage. It is not thought the crops will have suffered much owing to the smallness of the hail. Harvesting has commenced and will be in full swing by the end of the week.

### AT THE POPULAR RESORT.

Mrs. A. Ormby and family go out to Cooking Lake today. Mrs. Ormby and family will remain for a week.

Mrs. McFarlane and her sister from Toronto intend spending a couple of weeks at Cooking Lake.

Mrs. Umbach and Miss McCaul will spend their holidays at Cooking Lake. Messrs. Deaton, Lisk, Ranton and Gallinger leave today for Cooking Lake to spend a few days.

Mr. A. Brown and Mr. Kenneth McLeod will spend the week at their cottages at Cooking Lake.

### APPOINTMENTS GAZETTED.

The following provincial appointments are gazetted:  
Justices of the Peace—Gabriel Peter Rex Saverson, of Stavelay.  
Commissioners for taking affidavits—Albert John Robertson, of High River; Edgar William Frost, of Claresholm; John Paulson, of Camrose; John Brandon Roberts, of Innisfail.  
License Inspector—Robert Mays, of Edmonton.

## SVEABORG FORTRESS IS NOW IN THE HANDS OF THE LOYALIST TROOPS

## WILL BUILD TO CALGARY

G. T. P. General Manager Morse Made  
Pleasing Announcement in the  
Southern City.

Calgary, Aug. 3.—The result of the interview between Mr. Morse, the general manager of the Grand Trunk Railway and the business men of Calgary, which occupied the greater portion of yesterday was very satisfactory to the people of Calgary and to the people of Western Canada.

So much was said, so much was done, so much was hinted at during the day, so many words were used, which were so meaningless and many which were so full of meaning that it is difficult to arrive at the real business that was transacted.

But Mr. Morse stated as definitely as a man can state that the Grand Trunk Pacific would be in this city to be here about as soon, in fact in a very short time and there was no reason to believe that it would not be here as soon as it would be in Edmonton, though that was the original intention.

He had been asked if the G. T. P. proposed putting a road simultaneously into Calgary and Edmonton. This he had not contemplated, but it might be arranged. He had contemplated putting the line through to Edmonton this fall, but owing to the scarcity of labor the matter had been delayed.

For the secondary line which would be brought to Calgary, he wished the material to be brought over his own line. He didn't think, however, that it would be difficult to build to Calgary and Edmonton at the same time. In coming into Calgary he would like to do it in such a manner as the city deserved. The future dealings of the G. T. P. with Calgary would depend upon the service they gave.

### TEMPERATURE RECORDS

(Special to the Bulletin)  
Winnipeg, Aug. 4.—The weather has been cooler throughout Manitoba and the maximum temperature somewhat higher in the west, with the exception of a few showers in eastern and northern parts of Manitoba. The weather has been fine and bright in the North West provinces.

Mutineers at Kronstadt Worst and Court Martial Decides

Their Fate.—Stolypin Will Resign.—Warsaw Given  
Over to Outrage and Murder.

St. Petersburg, Aug. 4.—Statistics of the uprising in the Sveaborg fortress were made public at Helsinki yesterday evening. The mutinous force consisted of 1100 artillery men reinforced with three hundred Socialists and civilians who obtained entrance to the fortress when the first outbreak was suppressed. Eight hundred artillerymen and one hundred civilians were killed. The loyalists' casualties are unnamed. The fortress is now in the hands of the loyal troops.

The drumhead court martial has been resumed at Kronstadt and the executions of captured mutineers is in progress.

The Guards regiments marched into the city last night. They had been in camp, the Government having removed them from the city on the belief that the people had accepted the dissolution of the Duma.

The Russian Government has been thrown into consternation by information that the Moscow Guards are threatening mutiny. These troops are among the finest in the Russian army and are noted for years on account of their unimpeachable loyalty to the House of Romanoff. The news of their defection is considered the most alarming indication of the permeating of the entire military establishment with rank sedition.

All stations on the Finnish railway between St. Petersburg and Viborg as well as the entire coast are occupied by troops.

The troops at Revel have mutinied. Premier Stolypin has gone to Peterhof with the intention of tendering his resignation.

An organized strike has been formally ordered to begin on Saturday. As a preliminary the men employed in a dozen establishments quit at noon yesterday. General Linvitch, commander-in-chief of the Russian Manchurian army, will be made commander-in-chief at home with the idea of restoring discipline at any cost.

Admiral Bochenescheff, who received many wounds during the Kronstadt mutiny died during the night.

The crew of the Russian cruiser Aza which was sent to Abo, has hoisted the red flag. The vessel has left in the direction of Sveaborg.

Sundown last evening saw the

### Sveaborg Fortress is Now in the Hands of the Loyalist Troops

(Continued from Page One)

Passengers arriving at Stockholm, Sweden, on the steamer Ulaborg state that the Sveaborg is covered with bombs. The crew counted 450 corpses, many mutilated.

Authoritative advice from Helsingfors says the Finnish revolutionary committee has ordered members in all fortresses to mutiny on Tuesday August 14. The crew of the Baltic squadron have promised the revolutionists shore their assistance and have formally threatened officers of the ship with annihilation unless permitted to go ashore for the arrest purpose of attending revolutionary meetings.

The Governor of the province of Savara was murdered Friday afternoon by a bomb hurled at his carriage. It exploded within a few feet, blowing the governor's head and left off. The assassin was arrested.

Warsaw anarchists are engaged in one of the wildest night orgies ever seen there. Professional anarchists flourished the red flag everywhere and were joined by bands of revolutionists. The anarchists raged uncontrolled, shouting that all property should be distributed. The mob smashed doors and windows in the shops in principal streets and plundered them. Householders locked their doors and stayed inside while the lawless outrages paraded the streets. The police were powerless to cope with the rioters. Those who attempted to preserve order were shot down or clubbed to death, some of the killings being accompanied by horrible maltreatment of the victims. The commander of the gendarmerie, his wife and son attempted to drive through the streets. Their carriage was stopped and the occupants dragged to the pavement. The mother was forced to witness while her son was shot and beaten to death. Then she and her husband were riddled with bullets. At an early hour this morning the carnival of murder and rapine continued.

### TO-MORROW AT THE CHURCHES

**ALL SAINTS' ANGLICAN**—Third street south—Rev. H. A. Gray, rector. The rector will conduct both services tomorrow.

**ST. PAUL'S ANGLICAN**—Corner of Klatsino and Third street. Rev. H. H. Wilkinson, M.A., vicar. Services tomorrow as usual at 11 a.m. and 7 p.m. The vicar will conduct the services. Brotherhood of St. Andrew meets after the evening service.

**GRACE CHURCH, METHODIST**—Corner Kinistino and Sutherland streets. Rev. A. S. Tuttle, B.A., pastor. Services tomorrow 11 a.m. A. J. Lak, Alberta College; 7 p.m., A. J. Gilson.

### TESTED NEW CARBURETTER

An interesting scientific test was made last night at the offices of the Alberta Automobile Co. The test was to prove the economy and efficiency of Mr. Oliphant's patent carburetter. The test was made with a National gasoline engine.

The following is an analysis of the test made with the engine running with its own carburetter: Started at 7:23 p.m. and braked to 5 h.p., it made an average of 374 revolutions

per minute; for an hour on 5 quarts of gasoline.

The engine was then changed on to Mr. Oliphant's patent carburetter at 8:45 p.m. and ran for one hour with an average of 497.5 revolutions per minute, consuming in that time only 2.12 quarts of gasoline. By developing one h.p. more the engine showed a saving of 65 per cent.

These tests were witnessed by Messrs. W. Campbell, W. H. Parsons, J. Rose and a large gathering of ladies and gentlemen.

Mr. Oliphant also claims that by a low pressure lighting machine of his own invention and design one can have 600 candle power incandescent at the cost of 16 c.p. A test was also made with this machine last evening which greatly interested the spectators.

Mr. Oliphant with other local capitalists purpose forming a company in the near future to establish a factory to place these inventions on the market.

### PROPERTY FOR SALE

Tenders for the purchase of the undated properties will be received by the undersigned up to noon on Saturday the 11th August 1906.

Lot 24 Block 16 River Lot 19, vacant. Lot 38 and 40 1-2 Lot 37, Block 1, River Lot 13 log house.

Lot 3 and 4, Block 5, River Lot 14, vacant.

Fract. parts Lots 6-7, Block 4, R.L. 14, 1 house.

Fract. parts Lots 9-11, Block 4, R.L. 14, 2 houses.

Fract. parts Lots 12-13, Block 4, R.L. 14, 1 house.

Fract. parts Lots 14 and 15-2 15 4, R.L. 14, 1 house.

Fract. parts Lots W 1-2 15 and 16 Block 4, R.L. 14, 1 house (double).

Fract. parts Lots 18 41, Block 4, R.L. 14, 1 house.

Fract. parts Lots 42 43, Block 4, R.L. 14, vacant.

Fract. parts Lots 46 48, Block 2, R.L. 12, 2 houses.

Fract. parts Lots 43 47, Block 2, R.L. 12, 3 houses.

Terms: 25 per cent cash and balance in three equal instalments at one, two and three years from date of purchase with interest at 7 per cent. The lowest or any tender not necessarily to be accepted.

Tenders to be sealed, and marked "Tender for Property" and addressed to

GEORGE KINNAIRD, Secretary-Treasurer, City of Edmonton, August 14, 1906.

If You Want to BUY, Sell or Exchange a Property or Business, Call on Us. Purchase Price Reduced.

GALBRAITH & CROSS Real Estate Agents. 315 Jasper.

SEALED TENDERS, addressed to the undersigned, and endorsed: "Tender for Lock and Dam," St. Andrew's Rapids, Red River, Manitoba, will be received at this office until the 10th day of September, for the construction of a concrete Lock and Dam at St. Andrew's Rapids, Red River, Province of Manitoba.

Plans and specifications can be seen at this Department, at the office of the Resident Engineer of Public Works, Ashdown Building, Winnipeg; Mr. J. C. Sing, Resident Engineer; Construction Life Building, Toronto; Mr. G. Lejardine, Clerk of Works, Post Office, Montreal; and Mr. Ph. Bolland, Clerk of Works, Post Office Quebec. Forms of tender can also be obtained at the above mentioned places.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures.

The Contractor will be required to conform to regulations to be made by the Governor-General in Council, respecting the accommodation, medical treatment and sanitary protection of the workmen employed on the work. Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, for the sum of fifty-five thousand dollars (\$55,000) which will be forfeited if the party tendering declines to enter into a contract when called upon to do so, or if he fails to comply with the work contracted for. If the tender is not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender. By order,

FRED GILGILLAN, Secretary, Department of Public Works of Canada, Ottawa, July 27, 1906.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

### EXPERT BILLIARD ADVICE

Mr. Charles Acland of the world famous firm of BURROUGHS & WATTS, LTD., London, England, manufacturers of billiard tables, etc., is now on a visit to Canada and will be in Edmonton during the next few days.

Mr. Acland is anxious to make appointments to meet owners or prospective owners of Billiard Tables, and respectfully invites them to favor him with an interview. No one interested in billiards should miss this opportunity of obtaining expert advice on all matters pertaining to tables, or should miss the up-to-date information concerning Burroughs & Watts' recent patented improvements.

**City News****LOCAL**

—Edmonton vs. Anacortes, Second street grounds, at 6.45 this evening.

—Tom W. Taylor, M.P.P. for Centre Winnipeg is a guest at the Fendennis.

—Tenders are being advertised by the city for extensions to the boiler room at the power house.

—The National Trust Company, Limited have purchased the \$300,000.00 Calgary city debentures.

—Branch No. 337, of the C.M.B.A. will hold a grand picnic at St. Albert on Monday, Aug. 20th.

—The batteries for tonight's game will be Anacortes, McGinnis and Spedding; Edmonton Yarell and Hodge.

—Sidney W. Morris, M.A.M., of London, England, has been appointed choirmaster of the First Presbyterian church.

—The period of prorogation of the Alberta legislature has been extended from August the 9th until Friday, the 9th day of November.

—The L. O. O. F. Grand Lodge of Alberta will meet in Norwood Hall, Edmonton, on Tuesday, August 7 and 8.

—A. E. Voyer returns to his home in Vic, Quebec, today, having received a wire that his father is dangerously ill.

—The regular monthly meeting of the Women's Hospital Aid will be held on Monday at 3 p.m. in the school room of All Saints' church.

—Revillon Bros.' new tinmith shop on Isabella street opposite the St. James hotel, has been opened, and is now occupied by the tinmiths.

—Foot drill for "A" squadron, C. M. R., will be held on Monday evening at the armories at 7.30. Mounted parade a week from Monday.

—The second game of the series with the Ancorties ball team will be played this evening on the Second street grounds, commencing at 6.45 sharp.

—The Douglas Co., Ltd., bookellers and stationers, have disposed of their branch store in Strathcona to Thos. R. Tipton, late of J. G. Tipton & Sons, of Strathcona. This business was established in Oct., 1904, and during that time has developed into a flourishing business. Mr. Tipton takes charge at once.

—A lacrosse game will be played on Wednesday evening at Second street grounds between the Capitals and Strathcona. The Capitals have now a strong bunch of stickhandlers and the game will be the best of the season. There will be three or four new faces on the Capitals' line-up.

—Robert June, weed inspector for District 53 was in the city today. He says that he never saw oats and barley looking or promising so well in his six years' travelling through Alberta. Mr. June says that many farmers are not yet alive to the danger of the weed nuisance. He cites the case of one farm in 55-54 where two years ago the weeds were so bad that the oats yielded only 27 bushels to the acre. This year, due to the careful summer following of Mr. McLaughlin, there will be as high as a hundred bushels per acre.

—The police department of the city desire to call the attention of the merchants and citizens of Edmonton to the by-law respecting early closing. The by-law calls for the closing of shops after 6.30 p.m., but does not include "the business of a druggist, or chemist, nor shop-keeper whose sole business is that of a tobacconist, news agent, fruiterer or confectioner or keeper of an hotel, restaurant or cafe." It will be noticed that any of the above mentioned businesses that is carried on as a sideline or in conjunction with some other business such as grocery business comes under the restrictions of the by-law and must close at 6.30. The police wish this point distinctly understood.

**SOCIAL AND PERSONAL**

Miss R. Pugh and Miss M. Stratton are spending three weeks at Paken.

Miss Nichols, of Alberta College, is spending a short holiday at Paken and Vegreville.

J. A. Lessard leaves today for Montreal and Quebec, where he will spend some time.

R. J. Gillis, of the Public Works department, is home again after two weeks' holidaying.

Constable Tom McCallum, of the city police force, left this morning for a short visit to his home.

Miss Olga Touchbourne and her friend Miss McHugh, daughter of Senator McHugh of Lindsay, Ont., will be the guests of Mrs. A. Campbell Carmichael, Fifth street west for a few weeks before leaving for the coast cities.

## ENFORCE THE GAME LAWS

"Duck shooting" begins legally on August 23rd, and chicken shooting on Sept. 15th, and the game guardians throughout the country should see that they do not begin illegally before these dates. While the game laws have been generally well observed in the past reports, correct or otherwise, have been current every season of exceptions to this rule. The business of the game guardian is to guard the game and the object of his attention should be the man who does not voluntarily observe the law. Violations of the game laws are most frequent during a few days just before the opening of the shooting season. Game is then most plentiful and not having been shot at is easy to secure. To those who regard only the getting of the game the temptation is strong to go after the birds while they are numerous and tame. It is during this season therefore that the game guardian should be most vigilant and least merciful. The man who shoots out of season violates both the law of the land and the law of fairness. That game is then plentiful and easy to secure is because the great body of sportsmen in loyal observance of the law do not molest the game. It is unfair and unjust that their regard for the law should be made a disadvantage to them by those who respect not the law.

## THE REVOLT OF THE TROOPS

Despatches from Russia indicate that events there are moving rapidly toward the final crash. Hopelessly estranged from his people the only hope of the Czar lay in maintaining the attachment of the soldiery. Even the brief respite which this might have secured is denied him and from all parts of his Empire came reports of garrisons in mutiny, murdering their officers and joining the populace against the government.

This was to be expected for the "discipline" of the army was doubtless as heartless as the oppression of the civilians and the soldier probably had as great cause for rebellion against the officers who abused him as the laborers and peasants against the officials who maltreated them. And after all the Russian soldier was a son of the Russian people with relatives somewhere fighting in the cause of the people. When he fired upon the inhabitants of a city he was firing on the fathers and mothers of brother soldiers who were probably at the same moment in some distant village being ordered to take the lives of his own aged parents. Sooner or later the soldier was bound to discover that he was thus being made the instrument for the destruction of all that

was naturally dearest to him and when he discovered this he could no longer be depended on to support a system which called him to such service. The allegiance of the troops has been lost by the harsh discipline to which they have been subjected and by the crimes they were ordered to commit.

The revolt of the troops marks a new stage in the revolution. It means not only a loss of power to the Czar but an immense accession of strength to his enemies. The dissolution of the Douma gave the Russian people leaders; mutiny among the troops is giving them bands of trained fighters. The mutinous soldier dare not remain passive if he would, and goaded by his grievances he would not if he dare. The more the mutineers who join the revolutionists the sooner the general outbreak of civil war which now seems unavoidable and probably therefore the sooner its conclusion.

The mutinous soldier will be found among the most relentless of the revolutionists; the fiercest in fighting, the hardest to control, the least willing to settle again to the ways of peace when the conflict is ended. His training increases both his power to fight and his inclination to fight, while his rebellion against the old authority will make him unwilling to accept authority of any kind in future. "Military experience" in its worst interpretation means trained brutality and the worst in men is brought out by revolution.

## BULLETIN BIFFS

(By the Phoneyman).

As a rule lawyers are a brave class of men. It's conscience that makes cowards of us you know.

"What I told my wife" is the title of a new book that's just out. It's a splendid piece of fiction.

A hen is much broader minded than the sun because she will set anywhere. The west is the only place he will set in.

One man in town could see the lightning the other night but he couldn't hear the thunder because his wife had an old schoolmate to see her and they hadn't seen each other for more than twelve years.

Montreal Star: "Them's my sentiments," said the hydrant water, as it went through the filter and came out on the other side. "I hope I make myself clear."

In the Toronto police court, the magistrate sentenced Annie Rooney to twelve months which led the funny man of the News to remark that such would be a warning to My Wild Irish Rose, Molly O, Sally in Our Alley and Bedelia.

We might remark it is not good form to swear these days, no matter what people in Calgary may do. Toronto News—Mr. Frank Oliver is going to England. We trust he will not meet Mr. Whitney and Dr. Pyne. Street fights are so objectionable.

Calgary papers say their population should be 20,000. What chance has R. B. Bennett in such an environment?

A student at Berkeley, California, nearly starved to death to gain an education. There are others who have got the education first.

The News—The constant anxious cry of the West is for more harvest hands, while the crying need of the East is for fewer people making estimates of the size of the crop.

News—Mr. and Mrs. Nicholas Longworth figured in an automobile accident recently. With so many counter attractions it required some sacrifice to keep in the limelight.

## The Manchester House

(ESTABLISHED 1888)

## The Question of Children's Shoes

Is an extremely important one, as so many mothers know. It is sometimes very hard to get a shoe that will fit a child's foot properly, and often requires a large stock to choose from. We make a speciality of Children's Shoes, and as we carry a large stock we are usually able to find a shoe that will please our juvenile customers.

## INFANTS' SOFT SOLE SHOES

In tan or black, 45¢ per pair, colors and white, 65¢ and 75¢ pair.

## CHILDREN'S SLIPPERS

We carry a good range of children's slippers; all sizes, and several different prices.

## CHILDREN'S PATENT TIES

For dress wear, a very dainty patent tie; sizes 11 to 2, per pair \$1.25.

## SHOE DRESSING

We carry only the best liquid and paste dressings, in all colors for black, gun-metal, tan, brown or white shoes, and will promise you that any dressing you buy here cannot possibly injure the finest shoe.

## MISSIE'S SPRING HEEL SHOES

We show a special line of missie's spring heel shoes, sizes 2 1/2 to 5, fine Dongola, with patent tip, \$2.50 and \$3.00 per pair.

## INFANTS' MOCCASINS

Infants' fancy soft sole moccasins, in colors, 25¢, and 60¢, a pair.

## CHILDREN'S BAREFOOT SANDALS

In an extra good make, all sizes, 5 to 10 1/2.

## BOYS' LACROSSE SHOES

In a range of sizes 6 1/2 to 11 to 13 and 1 to 5.

## CHILDREN'S SCHOOL SHOES

We carry a line of Children's Shoes, made specially strong to stand hard, every-day wear.

## KANT SLIP SOLES

A large number of our Children's Shoes in the smaller sizes are made with a special sole that will not slip. This is a great advantage and costs no more than the shoe made with an ordinary sole.

## YOUR INSPECTION

Of our shoe stock is invited at any time convenient to you.

## Sports

The Capitals did up their visitors from over the line in the first game of the series at the Second street grounds last evening by the comfortable score of five runs to one. Such baseball is a new feature on Northern diamonds with record weather a record game and a record crowd.

There was no rain or no darkness to shut the game off, there were no fights and no evidence of bad temper. There was no grousing and grumbling at the decision of the umpire, and Garrison got a share of bouquets after the game.

Excitement held throughout the game for the teams played close ball, and from the bleachers the cheers came as loud for a neat play when the outcome was uncertain as they did when the tally board showed the Capitals four runs to the good.

The Americans are an all round good team and right from the start they handed out a class of good plays and for a while held the capitals down until the tally man got tired chalking up ciphers.

Not until the fifth did Edmonton get a chance. Gleason made a pretty two base hit, which brought Deaton to home plate for the first score, and Gleason came around a few minutes afterwards and on an error of Kinnear scored the second. In the seventh Kayson brought in the second for the Anacoras, reaching home on a safe hit from Reeves.

The capitals did their bit stung in the seventh also. Howard and Gleason both walked on balls, and then Adams took the hickory and made the big hit of the evening. He hit a beautiful fly which sailed away over right field into the street. Howard and Gleason took the trail for home plate on the jump, but Adams took it easy and walked the bases. The crowd turned loathe and yelled and "Wild Bill" took Adams aside and treated him for old times sake.

The Americans are a tidy lot. They play good ball on general principles and do a few exceptional stunts occasionally. They play with their heads in the game at all stages. They are gentlemanly boys and there is no unnecessary noise about them. It was a treat for the citizens of the Capital to meet them, and they showed their appreciation of the visitors by applauding roundly their special features.

The team can boast of a good battery, and Kinnear has a neat stock of curves.

Play by innings—  
First—Anacoras.—Whitemore fanned, White fanned, Speidell caught out by Sullivan on foul fly.

Edmonton—Gleason base on balls. Adams, sacrifice out on first, Sullivan caught out by Black, Hodge out on first.

Second—Anacoras.—Kayson, out by first, Black caught out by Setley, McGinnis fanned.

Edmonton—Setley out on first, Dobson, base on balls, Deaton out by Horner, Dobson out on second.

Third—Anacoras—Reeves caught by Sullivan, Horner out on first, Kinnear fanned.

Edmonton—Yasell out on first, Howard safe on error of Kinnear, Gleason caught out on foul by Speidell, Adams out on first.

Fourth—Anacoras.—Whitemore caught out by Deaton, White out on first, Speidell safe to first on error of Gleason, Kayson caught out by Adams.

Edmonton—Sullivan base on balls, Hodge sacrifice out on first, Setley fanned, double header.

The Anacoras baseball team will play again this evening at 6.45 with the Capitals. On Monday a double-header will be played, at 3.30 in the afternoon, and at 6.45 in the evening.

**WOMEN WORK IN THE FIELDS**  
(Special to the Bulletin)  
Kingston, Aug. 2.—Women are working in the harvest fields hereabouts. It is impossible to get male help, and they run mowers and binders while the men handle the hay and grain. In Prince Edward Island girls are paid \$1.00 per day for picking beans.

## THE PROVINCE OF SASKATCHEWAN.

### DEPARTMENT OF PUBLIC WORKS

#### Tenders For The Sub-Structure

##### Of Traffic Bridge at Battleford.

SEALED TENDERS addressed to "The Deputy Commissioner of Public Works, Regina, Sask.," and endorsed "Tenders for Battleford Bridge" will be received up to 4.30 p. m. Monday, August 13th 1906, for the supply of all material and the construction of eight (8) concrete piers and two (2) abutments for a traffic bridge over the Saskatchewan River at Battleford. About 5,000 cubic yards of concrete will be required in the work.

A certified cheque for the sum of \$4,000 must accompany each tender. The cheque will be retained until the necessary contract and bond are executed and the work commenced. The cheques of unsuccessful bidders will be returned after the contract is signed.

The right is reserved to reject any or all bids or waive any defects. Plans, specifications and all information may be obtained on application to the undersigned.

Dated at Regina, Sask., June 29, 1906.  
F. J. ROBINSON,  
Deputy Commissioner of Public Works.

**Why everybody  
likes Abbey's Salt.**

It is so pleasant to the taste that  
even children take it with pleasure.  
It does not "cake" or flake on top  
of the water.

It effervesces slowly—may be drunk  
leisurely, without choking or blinding the user like  
sodium powders.

The granules all dissolve—thus the full benefit of  
the salt is obtained with every dose.

It is the ideal laxative and tonic to purify the blood  
—regulate stomach,  
liver, kidneys and  
bowels—and build up  
the system.

## Farmers Page

THE PREVALENCE OF WEEDS  
(Farmers' Advocate.)

Custom and use have so dulled our  
perceptions that in the older settled  
districts the prevalence of weeds, mus-  
tards, wild oats, thistles, etc., fail to  
shock one, although one cannot but re-  
gret the enormous waste that follows  
their growth. In the newer districts,  
however, the situation is positively  
alarming, one sees on land cropped but  
once, some of the worst weeds known  
to western agriculture. The active  
work being done for the departments  
of agriculture at Regina and Edmonton  
by their henchmen, Willing and Mit-  
chell, is timely and much needed. The  
Seed Selector, Special, will, we think,  
benefit again and again if the pro-  
cess of farming on the prairie is not to  
be impeded and rendered unprofitable  
by the growth of weeds. To those who  
are starting to tear up the virgin soil  
we would say, look out for noxious  
weeds and be very careful as to the  
purity and cleanliness of the seed you  
use. Flax growing has always had a  
bad reputation for increasing our stock  
of weeds.

FALL WHEAT  
(Farmers' Advocate.)

The record of rainfall for the Prov-  
ince of Alberta contains a warning to  
the growers of fall wheat that should  
not pass unheeded. Generous rains may  
be expected from the middle of May  
until the latter part of July. This is  
the moisture that must be made avail-  
able for pushing the fall wheat plant  
along during the comparatively dry  
weather of the fall months. To do this  
early and careful cultivation of the land  
is essential. We have seen several  
failures due to neglect of this impor-  
tant feature. At times nature may be  
particularly generous but the success-  
ful man is the one who prepares for  
the worst and asks no favors.

Another feature that should be  
guarded against is late sowing. It will  
be readily seen that the plant securing  
an early start will be better able to  
avail itself of existing moisture than  
the plant which comes on later when  
growth is slow. No definite time can  
be set for sowing, but taking one year  
with another, the wheat sown before  
the first of September, will produce the  
best results.

The comparatively dry season pre-  
vents the heaving and winter killing,  
which is so injurious to fall wheat in  
the east, and care in cultivation and  
early sowing, Alberta should be the  
barned fall wheat province in the  
west.

So much has been said of impure seed  
that it seems superfluous to repeat it,  
that each year brings the record of the  
old story. Not only weeds have been  
sown, but shrunken wheat which can  
only produce a spindling growth of low  
vitality. Look out for the seed early;  
get a good sample; clean it again and  
again, if necessary, for all preparation  
and work is in vain if followed by that  
forerunner of a bad crop—poor seed.

A farmer on a poor (?) New Hamp-  
shire farm of eighty acres under til-  
lage, keeps 80 head of cattle, nine  
horses and twelve hogs. Few many  
cattle and hogs should a farmer in Al-  
berta, where the land is supposed to  
be so much better than in Stony New  
Hampshire, keep? If our methods  
were right we should keep at least one  
cow per acre. How many hogs should  
be kept, and how many sheep? These  
questions are even more difficult to  
answer. Certainly we are not keeping  
half as many as we ought. We have  
so much yet to learn regarding the  
handling of swine and sheep, and the  
profits to be made out of them are so  
much greater than we think they are,  
that the prospects of reaching our lim-  
it in either direction is exceedingly re-  
mote. And poultry? Well, the possi-  
bilities for expansion in this direction  
are ever more limitless.

WHERE TROUBLE STARTS FOR

BUTTER MAKING

(Farmers' Advocate.)

The doctrine of cleanliness is one

that has to be preached continually in

dairies. Dirt particles and germs

interfere with cream ripening, destroy

good and manufacture bad flavors and  
thus render an article of universal use  
bad, the demand for which depends  
largely upon its palatability and its  
wholesomeness. Creamery men have  
by the logic of events, refusal of their  
make, dockage on consignments, been  
forced to be clean, but their efforts  
are rendered inoperative by some farm-  
ers who have not yet thoroughly  
grasped the idea that the start of trou-  
ble for the butter maker is in the pail.  
Many precepts have been made on  
the basis of wet milking, advice has  
been given directing that the first few  
draw should not go into the pail on  
account of the high percentage of germ  
content, but there yet remains the  
milk pail, which in far too many cases  
is not as clean as it should be. A  
curious glance at it, and one might  
think it clean enough for the purpose  
but for the known fact that milk is  
more or less a solvent, and that during  
the process of milking, into the  
pail will incorporate some of the dirt  
found adhering to the sides. Probably  
the main cause of the presence of so  
much adhesive matter is that far too  
prevalent use is made of cloths for  
dairy utensils in the place of brushes,  
and the use of hot water for rinsing  
out with cold. Many seem to think  
that as milk only stands in the milk  
pail during the milking, and during  
the time of standing, to the separa-  
tor, the deep can, or shallow pan,  
that the damage likely to be done is  
of little consequence but in so reckon-  
ing they have overlooked the powers  
of multiplication possessed by germs  
which in the short time mentioned, and  
in such a favorable medium as warm  
milk, multiply at a rate as to be al-  
most incalculable. In order there-  
fore, to insure as far as possible the  
making of a high class article, give  
the butter maker a fair start by keep-  
ing the milk pails scrupulously clean!

COMPARISON OF WHEATS  
(Farmers' Advocate.)

In comparing the relative merits of  
Red Fife and White Fife, Dr. Sand-  
ers states that after a careful study  
of these two varieties for years, he  
concluded that they could only be dis-  
tinguished from each other by the color  
of the bran. Grown under the same  
conditions, they show about the same  
degree of hardness, ripen about the  
same time, furnish flour which appears  
identical in all respects, and produce  
loaves of bread of the same size, shape  
texture, weight and color.

Soft Red Fife is paler than hard Red  
Fife, because of the white, starchy con-  
tents of the interior of the soft  
kernels, and White Fife is paler than  
Red Fife, of the same degree of hard-  
ness, because of the paler color of skin  
of White Fife. Prof. Saunders stated  
that last year at harvest time in Nor-  
thern Manitoba a sample of Red Fife  
grade Extra No. 1 hard and a sample  
of grade No. 3 northern were taken.

Milling and baking tests of these were  
made during the winter. The principal  
made during the winter. The principal  
difference noted in milling was  
that the Red Fife produced about five  
per cent more break flour than the  
hard Red Fife. In total flour the hard  
wheat had slight advantage. In bak-  
ing tests, the flour for which included  
the break flour in both instances, the  
flour from the hard Red Fife proved  
superior in all respects. It absorbed  
and retained a little more water, and  
gave lighter bread of better shape and  
texture. The hard Red Fife flour  
earned 101 marks for strength, and the  
flour from the soft wheat earned 89  
marks. In referring to other varieties  
he states that while club wheat com-  
mands a high price on account of the  
mistaken idea that depth of color in-  
dicates strength, it is low in grain  
deficiency, in strength and should be  
condemned. Prof. Saunders states that  
results obtained thus far seem to place  
Red Fife and White Fife at the head of  
spring wheats for strength, and Tur-  
key Red at the head of winter wheats.

H. B. Co. LAND SALES

The Hudson's Bay Company's land  
sales for the year ending March 31st  
last comprises 236,198 acres for \$1,  
611,627, an average of \$7.12 per acre  
compared with 114,298 acres for \$705,  
1690 an average of \$6.17 per acre for  
the year preceding. The sales of town  
lots were \$342,317, compared with \$122,  
712 for the previous year. The total  
sales in the land department amounted  
to \$401,495, as compared with \$170,219,  
and the receipts to \$217,000 compared  
with \$335,470 last year.

of Deeds in this district."

THE EDMONTON LUMBER CO. LTD.

Dy 1 month from July 17.

From the Semi-ready Style Book.

While the young men of  
Canada, quickly open to mod-  
ern ideas, at once adopted the  
Semi-ready system of tailoring,  
the older and more conserva-  
tive men soon became as  
enthusiastic about it.

Why pay \$30 for a wait-to-order  
suit when you can get the same  
material better tailored for \$20?  
You may see just how his looks  
made up before you buy.  
Semi-ready Suits are finished to  
measure in two hours after the  
order is booked. Every suit is  
fashioned to fit some particular  
physical type.

# THE NOXIOUS WEEDS ORDINANCE

OFFICE CONSOLIDATION.

Of Chapter 24 of the Ordinances of the North-West Territories 1903 (First Session), (Assented to June 19, 1903), as amended by Chapter 17 of the Ordinances of the North-West Territories 1904 (Assented to October 8, 1904).

THE Lieutenant Governor by and with the advice and consent of the Legislative Assembly of the Territories enacts as follows:

## SHORT TITLE.

1. This Ordinance may be cited as "The Noxious Weeds Ordinance." 1903, 1st session, c. 24, s. 1.

## INTERPRETATION.

2. In this Ordinance unless the context otherwise requires—  
1. The expression "noxious weeds" shall include tumbler mustard, hare's ear mustard, common wild mustard, ball mustard, tansy mustard, wormseed mustard, false flax, shepherd's purse, stink weed, red root, Canada thistle, Russian thistle, ragweed, wild oats, [Russian pigweed and blue burs].  
2. The expression "Department" means the Department of Agriculture.  
3. The expression "Commissioner" means the Commissioner of Agriculture.  
4. The expression "Inspector" means an inspector appointed under this Ordinance.  
5. The expression "occupant" means a person occupying or having the right to occupy any land;

6. The expression "owner" includes every person who has any estate or interest in land, or who has any right to be vested with such an estate or interest. 1903, 1st session, c. 24, s. 2; 1904, c. 11, s. 1.

## INSPECTORS AND OTHER OFFICERS.

3. The commissioner may from time to time appoint such inspectors and other officers as may be required to carry out the provisions of this Ordinance, fix their remuneration and define their duties. 1903, 1st session, c. 24, s. 3.

## DUTY OF OWNER OR OCCUPANT OF LAND.

4. Every owner or occupant of land shall destroy all noxious weeds thereon, and if he makes default in so doing he shall be guilty of an offence, and on prosecution therefor by an overseer of the local improvement district or by an inspector or other officer under this Ordinance, shall on summary conviction thereof be liable to a penalty not exceeding \$100 and costs.  
(2) For the purpose of this Ordinance the owner or occupant of any land adjoining a public road shall be deemed to be the owner or occupant of that portion of such road which lies between the centre line thereof and the adjoining land of which he is the owner or occupant. 1903, 1st session, c. 24, s. 4.

## DESTRUCTION OF WEEDS.

5. Any inspector finding noxious weeds growing in any grain crop may notify the owner—  
(a) To cut and burn or plough under such crop or any part thereof within a stated time; or  
(b) To fence or burn the straw and screenings from such crop within ten days after it is threshed. 1903, 1st session, c. 24, s. 5.

6. Any inspector finding noxious weeds growing on uncultivated lands shall notify the occupant thereof to destroy such weeds within five days from the date of such notification. 1903, 1st session, c. 24, s. 6.

7. Any inspector finding noxious weeds growing on uncultivated lands shall notify the owner by registered letter addressed to his last known address, if any, to destroy such weeds within five days from the date of such notice. 1903, 1st session, c. 24, s. 7.

8. Any inspector finding noxious weeds growing on railway right of way or any unoccupied lands owned by or forming part of the land grant of any railway company shall notify any section foreman or station agent of the railway company by registered letter to destroy such weeds within five days from the date of such notice. 1903, 1st session, c. 24, s. 8.

9. Any inspector finding noxious weeds growing in or upon any ditch or right of way of any irrigation company shall notify the manager, superintendent or ditch rider of such company by registered letter to destroy such weeds within five days from the date of such notice. 1903, 1st session, c. 24, s. 9.

10. Any person to whom notice has been duly given under any of the preceding sections who neglects to carry out the directions contained therein shall be guilty of an offence and on summary conviction thereof shall be liable to a penalty not exceeding \$100 and costs. 1903, 1st session, c. 24, s. 10.

11. In case noxious weeds are not cut down or otherwise destroyed on any land pursuant to any notice given by an inspector under this Ordinance or in case the name or address of the owner of such land is unknown, the said inspector or any person or persons directed by him, may forthwith enter upon the land with the necessary teams and implements and destroy such weeds in such manner as the inspector may see fit. 1903, 1st session, c. 24, s. 11.

12. The amounts expended in the work performed under the next preceding section may be recovered from the owner or the occupant of the land by action in the name of the Attorney General or the inspector or by distress by the inspector or his agent of any chattels on the land. 1903, 1st session, c. 24, s. 12.

13. Any such amount which has not been satisfied on or before the 1st day of January next following its expenditure shall be added to and form part of the local improvement assessment of such lands in all respects as if it were an original tax and it shall have the same effect on the land and may be recovered in any of the modes available for the recovery of such taxes and the amount so recovered shall be transmitted to the Territorial Treasurer and form part of the

noxious weeds Ordinance, 1903, 1st session, c. 24, s. 13.

14. Upon the [secretary] of a local improvement district receiving notice from the commissioner of any amount to be charged under the next preceding section against any parcel of land in his district he shall enter the said amount against the said land and until it is paid enter it in all returns to be made by him in the same manner as unpaid local improvement assessments. 1903, 1st session, c. 24, s. 14; 1904, c. 11, s. 2.

15. A certificate purporting to be signed by the commissioner to the effect that an amount named therein has been expended during any year for the destruction of noxious weeds upon any area of land described shall be *prima facie* evidence that the amount named has been so expended. 1903, 1st session, c. 24, s. 15.

16. No person shall sell or dispose of, or offer for sale or disposal any grain, grass, clover or other seeds intended for the purpose of seed in which there is seed of any noxious weed. 1903, 1st session, c. 24, s. 16.

17. No person shall purchase or sell, barter or otherwise dispose of or remove from any premises any grain, shorts, clippings or crushed grain or cleanings containing seeds of noxious weeds without first destroying the germinating qualities of such seeds.

Provided that matter containing seeds of noxious weeds may be removed from any grain elevator or warehouse for the purpose of sheep feeding or for such other purposes as will insure the complete destruction of the said seeds, under the authority of and subject to such regulations as may be prescribed by the Lieutenant Governor in Council from time to time which regulations shall be published in the official gazette. 1903, 1st session, c. 24, s. 17.

18. No person shall place outside any mill, elevator or grain warehouse, except in a securely constructed building, shed or covered bin, any matter containing the seeds of noxious weeds without having first destroyed the germinating qualities of such seeds. 1903, 1st session, c. 24, s. 18.

## THRESHING MACHINES TO BE CLEANED BEFORE REMOVAL.

19. Every person in possession or charge of any threshing machine shall thoroughly clean out such machine immediately after threshing at each place and before removing such machine or any part thereof to another place, and shall display in a prominent place upon his machine a card containing this provision, which will be furnished free upon application to the department. 1903, 1st session, c. 24, s. 19.

## PENALTIES.

20. Every inspector or other officer who neglects to perform any duty placed upon him by this Ordinance shall in respect of each instance of neglect be guilty of an offence and liable on summary conviction thereof to a penalty not exceeding \$25 and costs. 1903, 1st session, c. 24, s. 20.

21. Violation of any provision of this Ordinance for which no penalty is provided shall be an offence and the offender shall on summary conviction be liable to a penalty not exceeding \$50 and costs. 1903, 1st session, c. 24, s. 21.

22. Chapter 22 of the Ordinances of 1899 and chapter 31 of the Ordinances of 1900 are hereby repealed.

The Semi-ready Spring Style.

Semi-ready Tailoring was not an inspirational discovery. It was an evolution of bright ideas.

To put as good work in Semi-ready \$15 Suits as in their \$25 Suits was an after attainment.

SEMI-READY WARDROBE

# The One Right Steel Plate Range

Until we found out just the right way to use asbestos to keep the heat in a cooking range where it must cook the food instead of cooking the cook—every steel-plate range kept the kitchen boiling-hot. This range is a cool range—the top shield and lining is thick asbestos, so the heat stays inside the range and keeps oven evenly hot. Food is better cooked, quicker cooked and cooked for less fuel-cost.

For Cleanly Cookery  
**OXFORD CHANCELLOR**  
BURNS WOOD OR COAL

Everything about it is cleanly—empty the ash-pit without huffing ashes over everything; feed-pouch takes fuel without clutter and muss. Fuel does more cooking because this range has the right draft-control—sensitive, easily-governed—bring a fire up quick, cool it down quick.

Many styles on view

## How Japs Treat the Koreans

Victoria, B.C., July 28.—A recent arrival from Korea, who has large commercial interests in Japan, and for obvious reasons is unwilling that his name be published, told of some particulars of the treatment being meted out to the unfortunate Koreans by the Japanese since the occupation after the war, in an interview given to your correspondent. Within ten years, he said, probably less, if the nations of the world discover the true character of the much-praised Japanese before then, the Japanese will be the best hated nation in the world. Already those engaged in business in China are finding their methods annoying, not alone because of broken promises in Manchuria, and unfair treatment in trade matters, but of other reasons.

"The Japanese Government, I must tell you," said the visitor from Korea "has a special department, whose duty is the publication of favorable reports and the suppression, if possible, of unfavorable reports. Many of the Japanese newspapers printed in English, have been subsidized, notably the Japan Mail and Japan Times are thoroughly controlled by the Japanese Government. The Japan Mail, edited by a Britisher, long a resident of Japan, who is also employed in a highly salaried Government position, is considered by all foreigners in Japan as the paid apologist of the Japanese Government and any unfavorable report, however truthful, is immediately denied and the writer disparaged by this newspaper.

"Japan's occupation of Korea has brought with it untold misery and hardship for the unfortunate Korean. Of course, the Koreans, as a race are a backward people, and civilization would be of value to them, but not such civilization, so-called, as the Japanese have brought. Every valuable property or commercial interest of the Koreans is in danger of summary seizure. Lands have been alienated in large blocks, in some instances covering many square miles, in choice sections. The usual excuse given the unfortunate land owner whose crops are torn up and his houses raised, is that the Japanese Government has been compelled to appropriate the land in question for military purposes.

"I have a photograph," said the visitor, "which shows what fate is meted out to the unfortunate Korean who dares object to the seizure of his lands by the ruthless invader. This picture, made at Masampo, in Southern Korea shows the hanging of nine Koreans, who were called bandits by the Japanese, although everyone knew well that the only offense of the unfortunate men was that they had demurred because of the seizure of their lands, all they had in the world. The unfortunate men were brought out to the edge of the town and rough scaffolds were erected there, while they waited amidst a crowd of Koreans and Japanese with a company of gendarmes and soldiers to keep order and all were hanged at the same time.

"But Korean life is held cheap throughout by the Japanese in Korea. As I was leaving Korea, it was the night before I sailed from Fusan, I saw a Korean coolie carrying a long timber, which was very heavy, touch a Japanese on the shoulder. The unfortunate man, who was carrying a sword, swung about, and without a word, cut the Korean down and killed him on the spot. The Japanese police arrived soon after the murder and stood about looking at the dead body. They poked the corpse with their sabers and left it lying in the road, where the body lay for hours. It was still lying in the street at Fusan when I left the port.

"Foreigners in Korea are also endangered. Take the case of Mr. Sharp, Japanese had staked out portions of his property, and because he objected the Japanese made a strong attempt to kill him. He was fortunately warned how Japs treat the Koreans and he climbed from his horse by a side window, and saved his life by flight. That the men, some of them holding official positions, had intended to kill Mr. Sharp has been proved beyond all doubt.

"At Hamhung, at Gensan, at Seoul, and several other places Japanese have robbed and plundered the Koreans of tens of thousands of acres of land, with houses and crops. The usual excuse is that the land is needed for military purposes. If Japan will use all the land stolen from the Koreans for military purposes the balanders must be intending some immense works that would pumter more than all the soldiers of the Empire of Korea.

"There are hundreds of incidents, if I could recall them, of the ill-treatment of the Koreans. When the Japanese need laborers for any undertaking, for railroad building, for instance, they offer a small wage to the native magistrate. Officials in Korea are notoriously corrupt, and the magistrate steals at least half the wage and compels as many coolies as may be required to go to work. In some cases guilds of Korean laborers have paid increased sums to be released from bonds made for them by the village officials without their knowledge or consent.

"The insurrections reported from tempts to arrest the members of a

Korea mean merely the banding of worms who have turned. Anyone who resents the pillaging by officials of his lands and valuables is termed an insurgent.

"Was the treaty obtained from the Emperor of Korea by Japan, really obtained by force as stated?"

"That has been absolutely proved, though the Japanese bureau for dissemination of similar reports, and one or two foreigners in its pay, have stated otherwise. Some notable newspaper correspondents, as you know, have given the particulars correctly, though their reports have been promptly denied by Japanese officials, to whom truth is something to be used only when necessary. Anyone who has been in Japan will tell you how the Japanese regard truth.

"The Marquis Ito came to Korea and the military paraded their artillery around the Korean palace. They practically imprisoned the Emperor and refused to permit anyone to enter or leave. One by one the members of the Korean Cabinet were bribed or forced into line, and the Emperor still held out. Finally the Korean seal was obtained by force and affixed by the Japanese themselves to the treaty. That is the truth of the matter."

"You seem much anti-Japanese."

"It would so seem, but really the manner in which only the favorable side of these people is presented to the world by their clever campaign gives you the impression that anyone who tells the truth regarding them has an axe to grind. While I have commercial interests in the country, and am prejudiced to a certain extent because of the treatment of my interests in Korea, I do not regard myself as anti-Japanese. I have spoken only the truth and that ought not to injure any people who treat others fairly. But the Japanese do not. They cleverly hide the matters however. Take for instance the management of the mails. It is a notorious fact that newspapers containing unfavorable references are usually lost in transit. I have often found a hiatus in the receipt of daily newspapers for Korea, and on investigation I found that there was some exposure of Japanese actions in those newspapers, hence their disappearance.

### OPINIONS

Henri Bourassa, M.P.: "It should be made a rule that when a member of the House calumniates or makes an unfair reference to a reporter in the press gallery, he should have the grace to apologize in the same place in which the calumny has been uttered."

A Russian delegate at the Interparliamentary conference: "We came here in behalf of the Russian nation to partake in the great work of the conference. The Russian people desire peace. The mission of the Russian Parliament was to smother a great people from a regime of violence and substitute for it a sense of reality, liberty and justice.

"Germany," says the Kaiser, "will have the finest navy on earth." England will have to be content with having merely the finest on the seas.

S. H. Hadley: "If a man cheats me nineteen times, I shame him by trusting him the twentieth."

James J. Hill: "We do not expect to come in here and run away with your business; we expect to help to build it up. We hope to be able to enjoy your prosperity with you, because if the people of the country along the line of railway served by the railway are not prosperous, depend upon it, the railway will be poor."

Mr. Marcell, M.P.: "The evolution of government has proceeded satisfactorily in our case. The French have retained their language, their laws, and their autonomy and no more loyal subjects of the crown are to be found in the Empire."

President Roosevelt: "It may hereafter be necessary to consider the adoption of some scheme, such as that of a progressive tax upon all fortunes beyond a certain amount, so framed as to put it out of the power of one of these enormous fortunes to hand down more than a certain amount to any one individual. Such a tax would, of course, be imposed by the national, and not by a state government."

Sir Henry Campbell-Bannerman: "The Douma is dead; long live the Douma."

Rt. Hon. John Morley: "It is a great mistake to think you cannot understand the pleasure of literature unless you possess a library. A very few books will serve if rightly chosen."

### PLOT TO CAPTURE FORTRESSES.

Helsingfors, Aug. 1.—A gigantic military conspiracy aiming at the simultaneous capture of Russia's three great sea fortresses, Cronstadt, Sveaborg and Sebastopol, was sprung prematurely here last night by attempting to arrest the members of a

company of sappers who had mutinied on account of the death of one of their comrades, alleged to have been due to ill treatment.

The entire garrison of the fortress of Sveaborg flamed out instantly in revolt.

All the artillerymen and sappers garrisoning the place were involved. Only four companies of infantrymen remained loyal.

The mutineers seized the machine guns and practically all the quick firing guns and the light artillery, but even with this they were unable to hold the main fort against the loyal infantry.

Fighting continued all night and this afternoon.

Severe cannonading is in progress, showing that the fight for the possession of the main fortification is still undecided.

It is impossible from the shore to ascertain the exact situation.

### FOUND A MINERAL SPRING.

Red Deer, Aug. 1.—Our townsman, Dr. Grant left Red Deer over a month ago for a journey west and north of Edmonton.

He has now returned and as the result of indefatigable perseverance and splendid dash the plucky Doctor has secured a wonderful mineral spring in the mountains about 275 miles from Edmonton. It seems likely to surpass the famous springs of Banff though the water is probably of somewhat similar quality. The heat of the water however, is much greater than that of Banff, and there is a much larger flow.

### MEAT WILL BE BETTER.

Washington, Aug. 1.—Secretary Wilson today declared that as a result of the new meat inspection law and the rules promulgated by him yesterday a radical change for the better would occur.

"Within a very short space of time," he said, "the meat products of the United States will be purer and more wholesome than any similar product in the world. The conditions existing in some slaughtering and packing houses abroad are about as bad as can be imagined, and the American people henceforth will enjoy a distinct advantage over foreign consumers.

"Of particular importance is the rule providing for weekly inspection reports to be supplied to the bureau of animal industry. Without such reports it would be difficult to cope with the situation. As a general proposition, however, I believe the law will be complied with in every detail, but I shall take nothing for granted and will make the inspection in every establishment that the law reaches rigid and complete."

### CANADA'S TRADE WITH JAPAN.

Ottawa, Aug. 1.—Canada's commercial agent in Japan sends a very interesting report to the department on the flour trade.

The total flour shipments from Vancouver last year amounted to \$76,486, of which Japan took \$62,000. This Mr. McLean regards as a surplus which Canada had to send by the Pacific.

### COL SANDERS LEAVES CALGARY.

Calgary Alberta: Col. Sanders is in the city today having arrived yesterday morning, journeying from Vancouver, where he has been ordered to report.

Col. Sanders during the last few weeks has been engaged in a mission near Vancouver.

His post for the future has not been definitely determined. He has been ordered to report at the depot. There is nothing more as yet in his orders. It is expected that on arrival there will be something more definite.

It is rumored that under the new order of things there will likely be a commissioner for the entire force and that there will be two commissioners, one for each province and that Col. Sanders will be the assistant commissioner for Alberta.

Though this is a very likely arrangement, there has as yet been no intimation that there will be any such arrangements.

### WHEAT CUTTING AT DOMINION CITY.

Dominion City, Man., July 30.—R. E. Brown, of section 35, township 3, range 4, northeast of here, started cutting a fine field of wheat today.

L. D. Smith, of Arnaud, Man., a real estate dealer, came into the city yesterday and reports that while driving six miles east of Arnaud, his party saw wheat to the shock that had been cut on July 28. This was on the farm of R. E. Brown. Nearly all Mr. Brown's wheat is ripe, and will give a splendid yield and a good sample. Crops around Arnaud are magnificent, and will go in many cases from thirty to forty bushels per acre.

### for 33 Years

Shilo's Consumption Cure, the Lung Tonic, has been before the public, and this, together with the fact that its sales have steadily increased year by year, is the best proof of the merit of

### Shiloh

as a cure for Coughs, Colds, and all diseases of the lungs and air passages. Those who have used Shiloh would not be without it. Those who have never used it should know that every bottle is sold with a positive guarantee that, if it doesn't cure you, the dealer will refund what you paid for it. Shiloh.

### Has Cured

Thousands of the most obstinate cases of Coughs, Colds and Lung troubles. Let it cure you.

"Last winter I coughed for three months and thought I was going into Consumption. I took all sorts of remedies, but nothing did me any good until I used Shilo's Consumption Cure. Four bottles cured me. This winter I had a very bad cold, was not able to speak, my lungs were sore on the inside and back. Six bottles of Shiloh made me well again. I have given it to several people and every one of them have been cured."—J. Joseph, St. Francis, Que.

## ROAD MAKING UNDER WAY

Districts North and East of the City  
Being Opened up by Highways

Mr. J. R. Boyle, M.P.P., returned on Friday from a two weeks trip through the Sturgeon constituency looking over the roads and bridges. He was accompanied on the trip by Mr. John Fielder, road inspector. The trip included visits to the Lamoureux, Cuzot, Sturgeon Valley, Namsa, Poplar Lake, St. Eugene, Little Vermilion, Paken, Edvard, Veranka, Saddle Lake, Floating Stone and White Fish Lake districts.

The country is settling rapidly on the north side of the river in the vicinity of the Waasahatraw creek where a large number of Americans, Britishers are settling. Settlements north of Paken are also extending rapidly. A large number of Americans are settling north of Saddle Lake between Floating Stone Lake and Island Lake. The land in these districts appears first class and promises to richly reward the settler. Crops throughout the districts visited never looked better and are exceptionally well advanced for the time of year. Most of the wheat and barley in the vicinity of Paken and north of Saddle Lake is ripe and harvesting of both grains has commenced. On Monday, July 30, fields of both wheat and barley in stock were seen near Saddle Lake and also on Tuesday, July 31 near Paken. Crops nearer the city are not quite so early, but a large percentage of wheat and barley and a considerable proportion of the oat crop is coloring very rapidly. Where damage was done by cut worms early in the season in the settlements along the Sturgeon, some land was re-sown for green feed, but if the season continues favorable a large percentage of such crop will ripen. No damage from hail has been observed.

It now appears certain that a larger harvest will be threshed in the Sturgeon constituency than ever before. A survey party are now working on the Victoria trail from Fort Saskatchewan under directions from the provincial government and this trail will be permanently established as a public road. Gangs of workmen are following the survey party repairing the road, putting in culverts and small bridges. The larger bridges necessary have already been constructed. The work will be completed this summer. The trail, besides supplying the tributary districts will be the main freight route from and to Lac La Biche.

The provincial government are opening up a new road from the Paken ferry into the settlements north and also a new road from the north end of Saddle Lake to Floating Stone Lake to serve the settlements there. A road is also being opened up from Box Accord north to St. Emile to provide the people of that district with a road to Edmonton.

Men are now working on all these roads and they are expected to be completed during the summer.

Men have been working on the Athabasca Landing trail during the summer and this road has been put in good condition from the Sturgeon bridge to the Landing. A new bridge was built across the Tawatinio river and smaller bridges and culverts were necessary. The road between the Sturgeon Bridge and Edmonton will also be put in first class condition during the autumn.

The road from Fort Saskatchewan to the Sturgeon bridge on the Athabasca Landing trail will also be improved before the season closes. The Fort Saskatchewan trail has been graded from the city boundary to Fort Saskatchewan and is now in good condition.

## Strathcona

Strathcona, Aug. 3.—Mayor Sheppard came in on the late train from Gull Lake, where he has been spending a few days with his family, who are camping there.

Geo. Lord, who came up from the U. S. some time ago, has gone out as a guide to a party of landseekers in the White Lake district.

Mr. Biantyne, an ex-Whitby, Ont., man, has come out of the painting business and joined the staff of Jackson Bros. foundry.

Mr. Taylor, electrician, Edmonton, is in town supervising installing of poles and electrical appliances in our new electrical system.

N. McLellan, late of the Dominion hotel here, is making arrangements to leave the town early next week and go to reside, for a time, at least, on the Pacific coast, with his family, for the benefit of Mrs. McLellan's health. The officials who brought up the consignment of prisoners for Alberta penitentiary from Stony Mountain on the evening of August 1, returned to Stony Mountain on the 4 p.m. train. Messrs Meyer & Co., who some time ago bought out Mr. Tucker's stock of general store goods, Anderson avenue, have dissolved partnership and retired from business.

Town Electrician Solid, is at present very busy installing the new set of

electric poles, wires and other appliances. He has a gang of good assistants and they appear to be pushing the work to an early finish.

Contractor McAuley has a gang of workmen engaged at Alkerman J. J. McKenzie's residence on corner of McDonald avenue and Niblock street. We understand the residence will be moved some distance west and placed over a brick cellar and foundation and also painted and otherwise modernized.

Mr. Hennessy and wife, came up from Truro, N.S. Mr. Hennessy is a railroad man and is seeking a situation on the C. P. R. here.

Policeman Harris gathered in a couple of Gallicians who were disturbing the peace. They were disposed of by Justice J. W. Tipton, who fined them \$1 each.

Wm. McCully, a T. Eaton representative, went south on the 4 p.m. train. Mr. McCully is largely interested in town real estate and has been up here to dispose of his property.

Messrs. R. R. Jamieson & Brooks, C. P. R. officials were in town today looking over the railway situation here. They went down to the river, where boring operations have been going on for some time. We understand they were pleased with the progress being made in the preliminary work of bridge construction.

O. Torgeson, who came up to Alberta some three years ago, has just completed a fine modern two-story blacksmith shop on Anderson avenue, 26 x 54 and seems to be doing a fine business.

Thursday afternoon has been declared a public holiday. This will give the citizens an opportunity of patronizing the picnic in aid of the public hospital, which is slated for Thursday afternoon next.

W. H. Thompson, B.A., ex-principal of the Strathcona schools, has accepted the vice-principalship in the Calgary provincial school rendered vacant by the resignation of V. P. McGill, now superintendent of Edmonton city schools.

J. D. McLagan of Strathcona, has gone to Prince Albert to report to the Dominion Government on the unimproved country between Prince Albert and Hudson's Bay. He will be away several months.

## \$100.00 REWARD.

STRAYED  
From Battle River, 100 miles east of Wetaskiwin, 1 grey horse, branded N. S. on left shoulder, and bilaterally on both, weighs 1100 lbs; 1 grey mare, branded O-O on left shoulder, weighs 1200 lbs; 1 bay mare, three years old, white strip on face, white hind feet and graying tail, weighs 1100 pounds. One hundred dollars will be paid for information leading to recovery of above animals. Address Wm. Latimer, Box 536, Edmonton.

LOST  
Small parcel addressed to R. Moss, Edmonton. Return to Bulletin, day it is published, under charge of fraud
